

Folding Grappling Hook

The Folding Grappling Hook is a lightweight, ultra portable grappling hook. It measures 8" long and 11" wide when extended into working position. With arms folded inward (storage position), the compact hook is only 4" wide. This innovative tool has three tines placed 120 degrees apart with serrated/notched ends. It is capable of holding 1650 lbs.

Excellent for 1 or 2 story ascents and descents, elevator assaults, tall ship entry, emergency rescues, emergency egress, mine-field and trip wire clearing, concertina wire, and large debris clearing.
