

Ladder Pack with Telescoping Ladder

Perfect combination of comfort, versatility and value. This ladder and backpack kit is compact yet allows for 16' reach when ladder is extended. ***Ladder is available in an EN131 compliant version. USA made backpack is light but is designed for comfort and load capacity. Quick release straps hold ladder onto backpack securely.

- Sternum strap: adjustable positions, quick-release & elastic tensioned
- Shoulder pads: 3/4" Dual-density, D-ring routers, Hydrophobic spacer mesh belly & overload stabilizers.
- Lumbar pad: 3/4" Dual-density, sans "ears", 2" web belt. HSM belly.
- ITW GhilliTEx hardware for reduced IR signature & increased field durability. Made in USA (Berry Compliant)
- Material: 500D Cordura
