

Hydraulic RatPak Gen 3™

Highly portable and effective hydraulic breaching toolkit in a custom made backpack. Quick disconnect fittings allow operator to switch tools depending on mission. Entry tools can be powered easily and quietly from dual stage 10,000 psi pump. US made pack has padded shoulder and waist straps for ultimate mobility.

Pack Features:

- Adjustable padded shoulder straps and adjustable padded hip belt
- Reversible backpack allows operator to activate pump while wearing or place backpack on floor and operate as a foot pump.
- Loop handle on top to lift pack
- Includes 2-in-1 HDP4+JS41 door pusher and jamb spreader tools
- Color: Black
