

PB30 | PB24

One piece forged halligans will stand up to years of regular operational use

BC24

Bolt cutters feature replaceable blades

SH14-3

Mini sledgehammer

Rain fly included to protect tools during transport

Easy to use Velcro straps allow each tool to be removed and replaced independently

BR23-C

23LB Composite Ram

Each Rampak Pro includes five specially selected tools: 30" Halligan, 24" Halligan, 23lb Composite Ram, 24" Bolt Cutters, and a Mini Sledge Hammer. These tools give professional entry teams the equipment they need to breach inward and outward opening wooden and steel doors.

Hook and loop patch mounting location on back of pack

Quick release shoulder straps allow the pack to be quickly dropped in an emergency

Composite framed backpack will not permanently deform

MOLLE loops on belt and rear of pack for attachment of auxiliary supplies

The Rampak Pro comes complete with all of the tools needed for even the toughest breaches. This high quality kit includes a lightweight composite framed backpack [includes rain fly] that is designed to be worn with a plate carrier.

ITEM	PART #	WEIGHT
